## INDEX VOLUME

THE membership of our Society has increased and it follows that the demand for earlier volumes of our Stud Books has outgrown the supply, and up to Vol. XL are now out of print. To meet this demand we have prepared a second index to cover Volumes Nos. XVIII to XXXIX.

It has entailed a great deal of work and preparation but it is hoped that the effort will be appreciated and the Index will supply all the information which so many breeders and owners require for reference from time to time.
